

Nandani Bansal

Associate Software Developer

bansalnandani620@gmail.com — +91-6232760963 — GitHub — LinkedIn

Professional Summary

Entry-level Software Developer with hands-on project experience in full-stack MERN development and Python-based AI/ML integration. Skilled in building responsive web applications, developing RESTful APIs, and writing clean, maintainable code.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, MySQL

AI / ML: Python, Data Preprocessing, Model Integration

Tools: Git, GitHub, Docker

Projects

Medicode – Medicine Reminder Application

React, Express.js, MongoDB — GitHub

- Built a full-stack medicine reminder system for scheduling alerts and refill tracking.
- Developed responsive UI components using React and Tailwind CSS.
- Designed RESTful APIs for managing users, reminders, and schedules.
- Applied modular architecture to improve maintainability.

Fake News Prediction Web Application

React.js, Python, Machine Learning — GitHub

- Developed a web app to classify news articles as fake or real using an ML model.
- Integrated the ML model with the frontend via REST APIs.
- Implemented real-time predictions and optimized React state handling.

Personal Portfolio Website

React, TypeScript, Tailwind CSS — Live — GitHub

- Built a professional portfolio showcasing projects and technical skills.
- Used TypeScript for type safety and improved code reliability.
- Optimized build performance and ensured responsive design.

Education

B.Tech – Information Technology, ITM University

2022 – 2026

Certifications

- Oracle Certified AI Foundation Associate
- AWS Academy Graduate – Cloud Foundations
- Infosys Springboard – Python for Data Science
